

Prepare Ships

This project has received funding from the European Union Agency for the Space Programme under the European Union's Horizon 2020 research and innovation programme under grant agreement No 870239.

FINAL CONFERENCE 2022

Welcome to the Prepare Ships Final Conference on May 3rd, 2022.

The research project Prepare Ships has created a solution for smarter positioning services that aims to increase safety and avoid accidents at sea. Reliable navigation is made possible by combining different sensors and signal sources, that gives the operator a predicted route of the surrounding vessels.

The project team is happy to invite you to a day that will give you a deeper understanding of the project's results, the technology behind it and show how Prepare Ships can contribute to safer shipping for the future.

Programme outline

Where: SSRS Swedish Sea Rescue Society, Långedrag
When: 12.00-17.00, May 3 2022

Lunch

Opening of Conference

Joakim Lundman, Project Manager Prepare Ships

Keynote speaker - MASS insights and outlook

Henrik Tunfors, Senior advisor at Swedish Transport Agency and Chair of the IMO MASS Working Group

1st session - Prepare Ships background and project results

- High accuracy positioning
- VDES Communication
- Predictor System & HMI

Break, Coffe

2nd session - Other perspectives

- Insights from Accident investigations and the benefits and drawbacks of better route prediction and route exchange from a HMI perspective.
Ossur J Hilduberg, Head of Danish Maritime Accident Investigation Board
- EUSPA perspective and EUSPA outlook for VDES and Prepare Ships (tbc)
- Users perspective (tbc)

3rd session - Future outlook

Hybrid
Event
